CGB Football

By Adam Suter

The football season is here and everyone is excited for the spectacular year ahead of us. Fans are getting hyped for the new season. When asking how the season would go, Brady Greenwood one of our captains and our running back, responded with "I think we're gonna have a special season." The team this year is bigger and stronger than ever with forty two boys playing, sixteen of them are seniors. Greenwood is not

wrong, this season will be very special as it is the seniors last year to play for the Orange and Blue Broncos. It is a sad time for many thinking that this could be your last year ever playing for a team. When asking Gage Taylor Barker what he would miss about playing football, he responded with "The pure joy of scoring a touchdown." Everyone has their memories about football and we

all will miss the enjoyable sport. So as we get ready for the new season, let's try to make it our best and go out with a bang.

CGHS Volleyball

By Justin West

It is the start of the volleyball season and the volleyball players are already off to a good start. They played a great game against Warrensburg-Latham and finished with a win, but Anna Peter said, "we have a lot of experienced players on the team, but we play against a lot of challenging schools in the begin-

ning of the year so our competition is up." The volleyball team still has many tough games to go but they are pumped up and ready to play their hardest. When talking to Sydney Walker, and asking how their season would go she thought their season was gonna go, "Good, I think we have a lot of potential and if we are

comfortable on the court we should dominate our conference." Both seniors, Anna and Sydney, are ready to make their last season not only a good season, but also a fun season for their team. So watch out because they are coming, ready to serve out some losses.

CGB Cheerleading

By Baylie Zientara

The CGB cheerleading team is looking forward to an exciting season. This year, the CGB girls will be cheering on our sidelines as well as cheering in at least two competitions! Captain Mia Brandenburg says, "it'll be a great year for us, we all work well together". As a captain, you have have great leadership skills, you have to be able to steer your people in the right direction to push

them to be the best they possibly can be. I asked Mia what she thinks it takes to be a good leader. She said, "I think you have to be able to stand up for what you believe in without stepping on people's toes, and to always make sure that everyone's voice is heard." The cheer team has some exciting plans in the works for the season. The CGB cheerleaders hope to make it to state

this year, and we wish them the best of luck! Mia's final words to her team, "Continue to grow as a team and work together, the cheer team has a great future, and I believe in all of you! This might be my last time as a CGB cheerleader, but I cannot wait to come back and support you guys! The cheerleading team is coming back this year stronger than ever.

Poms

By Tristen Peters

This year the poms team is working on having their best season yet! Captains Jordan Wright and Madison Hicks have been working on new choreography with the team since the beginning of summer. Both captains are

confident that this year will go better than last year because they are teaching and learning a lot of different moves. The team has been practicing hard, making them stronger and work well as a team. Finishing dances has also become easier by fixing and creating dances. The new coaches Keyli

Morganthaler and Haley Gregory are also very positive and excited about this season and the team can't wait to see what this year holds for the 2018-2019 season.

New Track and Construction

By Paige Barnes

As everyone knows we got the exciting news at the end of last year that we were going to be getting a new all weather track. I, myself, was pretty excited to be getting that news because it means we can finally start hosting track meets again. Although, at the football scrimmage there were some complaints about how crowded standing at the fence was. Overall the new track looks amazing and we should have a great track season.

Most people are excited about the new school building, but less excited about all of the construction. The most popular part of the improvements is the air conditioning in the gym. The estimated time for all of the construction to be completely done should be the 2019/2020 school year. Since that is the case, I asked Dorie Bulthuis and Allena Vest what they were most excited for, for when the construction is finished. Dorie said "the track" and Allena said, "For people to look at our school and be impressed".

Mindful Mia

It almost seems unreal that I just started my last year as a CGHS student. Throughout high school I always said that I was ready for senior year, but now that it is actually here I am kind of sad that this is going to be a year of lasts. Applying for colleges and getting ready to move on is definitely scary, but I am so excited to see what the future holds. As homecoming week gets closer, I am getting more excited for spirit week, painting windows around town with the cheerleaders, my last homecoming game as a CGB cheerleader, and the dance with all my friends. This year is our year and the Seniors are hoping to win at Spirit Day. This year is going to go fast, but our class is going to do great things in the future. For right now, I am going to focus on our last year of high school: one last cheer season, track season, homecoming, prom, and many other things. Goodluck to everyone with this school year, but since it is homecoming, I am going to end with this, "2-0-1-9 yay rah Seniors!"
